

CNC Machining Supervisor

Q2 ALS with operations in Canada and the US is searching for a CNC Machining Supervisor. This position will be based at our Red Deer, Alberta Manufacturing Facility.

RESPONSIBILITIES:

- Lead, motivate, and mentor a team of machinists.
- Daily supervision and coaching of employees.
- Plan, schedule and track jobs to maximize efficiency and organize workflow.
- Set daily/weekly/monthly objectives and communicate them to employees.
- Submit reports on performance and progress for output rate and quality levels.
- Identify issues with efficiency and suggest process improvements.
- Ensure the safe use of equipment and schedule regular maintenance.
- Train new employees on how to safely use machinery and follow procedures.
- Manage, approve and verify nonconformance issues.

QUALIFICATIONS and EXPERIENCE:

- Minimum 3 years Supervisory or Lead hand experience.
- Journeyman certificate an asset but not required.
- Background in CNC and Manual machining.
- Ability to read and interpret engineered drawings.
- Good organizational and leadership skills.
- Possess strong communication skills, both oral and written.
- Experience with Lean Manufacturing an asset.
- Experience with API and ISO Quality Management System implementation and management.
- Result focused work ethic.

APPLY:

Please provide cover letter, resume and references with attention to Human Resources.

We are an equal opportunity employer. We would like to thank everyone for their interest, however, only those candidates selected for an interview will be contacted.
